

We Invite You to Join the Obesity in General Internal Medicine List Serve

This is a setting for SGIM members interested in obesity-related issues:

- To network with colleagues who share an interest in obesity prevention and treatment
- To report existing projects and/or proposals relating to obesity and overweight
- To exchange ideas and resources for program development and evaluation
- To potentially collaborate on future projects
- To discuss the role of generalists in the treatment and research of obesity
- To discuss how to incorporate new studies and information into clinical practice

To join, go to www.sгим.org and click on the “interest groups” link at the top of the page. Then click on the Obesity group and follow the directions on how to join. It is for SGIM members only. If you have any problems or questions, email Melanie Jay at jaym01@med.nyu.edu or Sharon Herring at sherring@hsph.harvard.edu.

Once you have joined, you simply send email to obesity@list.sгим.org to communicate with everyone on the list.
