
SGIM VIDEO PROJECT SUMMARY

OVERVIEW:

The SGIM Education Committee, in collaboration with the Membership Task Force, created video testimonials of early, mid- and senior-career SGIM members discussing their current position, their career path, and the role that SGIM has played in their development. At the 2009 Annual Meeting, 47 video interviews were recorded. These videos have been digitalized and time stamped for easy editing. At the 2010 Annual Meeting edited versions were shared with membership at various venues.
