SGIM Membership Committee

For the purposes of this document, a survey is any query intended to collect data from SGIM members for research or informational purposes. These guidelines are written to apply to all ways of conducting a survey, including in person (i.e. Q&A), over the phone, by paper, or electronically.

5. When appropriate, survey results and/or resulting publication will be shared with SGIM membership, either through the All Member Open Forum, Forum, or JGIM.
