

## ANNUAL MEETING UPDATE

## Annual Meeting Invited Sessions

Karen M. Chacko, MD; Krista W. Bowers, MD; Joshua P. Metlay, MD, PhD; and Amir K. Jaffer, MD

*Drs. Chacko and Bowers are chair and co-chair, respectively, of Clinical Updates 2012. Drs. Metlay and Jaffer are chair and co-chair, respectively, of Special Symposia 2012.*

**S**GIM is proud of its tradition developing annual meeting content through a process of submission and peer review. But every year we have invited clinical updates and special symposia to make sure a core base of content is developed. This year we are sure you will find that the invited sessions provide valuable learning experiences.

We are offering nine clinical updates this year. Each will present, summarize, and critique the most recent evidence from the peer-reviewed literature. These invited sessions cover topics chosen specifically for their clinical relevance and impact. Sessions are selected based on the protocol developed by SGIM Past President Kurt Kroenke.

We hope you will consider regis-

tering to attend the newest clinical update on the care of cancer survivors. Organized by Larissa Nekhlyudov, MD, MPH, this session will include information on post-treatment surveillance, long-term side effects of treatment, and special screening considerations for the increasing number of survivor patients.

Review the list of updates (below); as you will see, there is something for everyone—whether you are primarily an inpatient physician, an outpatient physician, or a clinician-educator.

Meeting attendees will also have the option to register and attend six invited symposia. Each of these addresses an important topic that rests at the junction of clinical care, training, research, and health policy.

These invited sessions span a range of topics developed by the Annual Meeting Program Committee and were specifically designed to be cross-disciplinary in focus. We're confident that SGIM attendees will want to attend several of the listed special symposia.

Attending the meeting takes just three steps, and all the information you need is available online at [www.sgim.org/go/am12](http://www.sgim.org/go/am12):

1. Register to attend online
2. Make your hotel room reservation
3. Arrange your transportation to Orlando.

Three steps and you're done! We look forward to seeing you there....

SGIM

## 2012 Annual Meeting Symposia

<i>Symposium Title</i>	<i>Coordinator</i>	<i>Register for Session Code</i>
Implementing Care Transitions	Michael K Paasche-Orlow, MD, MA, MPH	SSA - Thursday
Graduate Medical Education in the Modern Era	Darcy A. Reed MD, MPH	SSB - Thursday
Educating Residents in Quality and Safety	Anjala V. Tess, MD	SSC - Friday
New Medical Schools and Innovative Models of Medical Education	Maria L. Cannarozzi, MD	SSD - Friday
Managing High Cost Utilizers/ Improving Value In Healthcare	Timothy G. Ferris, MD, MPH	SSE - Saturday
Federal Initiatives to Stimulate Innovation in Healthcare	William Shrank, MD, MS	SSF - Saturday

## 2012 Annual Meeting Updates
