

PCOR Assessment-Patient and Patient Advocates

Introduction

Thank you for taking the time to complete this 5 minute survey. The Society of General Internal Medicine (SGIM) wants to hear about your experience with Patient Centered Outcomes Research (PCOR) and to find what helps (or makes it more difficult) to become involved. The Patient Centered Research Institute defines PCOR as research that helps people and their caregivers communicate and make informed health care decisions, allowing their voices to be heard in assessing the value of health care options. At the end of the survey, please let us know if you want to be included in a drawing for a \$250 prize. Thank you.
