

2022-2023 Membership Report

Summary: The Society of General Internal Medicine (SGIM) membership is comprised of health professionals, or students in the health profession, interested or involved in teaching, education, and/or research related to primary care, hospital medicine, and general internal medicine in the United States, Canada, and 16 other countries. The membership year is January 1 to December 31 and the renewal process begins in October of each year.

Total Membership: As of April 19, 2023, SGIM has 2,996 active members renewed for 2023 and beyond. This includes 2,233 Full Members (faculty, health professionals), 684 Associate Members (all levels of trainees), and 79 Emeritus Members (retired, long-standing members).

Notable Change: During the 2021-2022 year, SGIM's membership has fully recovered from the lower membership renewal rates that were experienced since the start of the COVID-19 pandemic and SGIM not being able to host the 2020 and 2021 annual meetings in-person. Both issues had a direct correlation to the drop in membership renewals during the 2019-2021 year. SGIM's membership team has continued facilitating target marketing campaigns to re-engage lapsed members by creating communications that highlight an individual member benefit every 2 weeks (for example: renewing to take advantage of mentoring, networking, annual & regional events, volunteering opportunities, awards & grants, etc.). This, and hosting the 2022 and 2023 Annual Meetings in-person, has positively impacted SGIM's membership. The Membership Committee and membership staff were given a 2% growth goal from SGIM Council. The 2023 SGIM Annual Meeting will serve as an opportunity to engage both non-members and lapsed members helping meet the growth goal by the end of the fiscal year (June 30, 2023).

Member Location: Of the total membership, 2,923 members live within the United States and 73 members live outside of the United States. Members living in the U.S. are divided into seven regions: California-Hawaii, Mid-Atlantic, Mid-West, Mountain West, New England, Northwest, and Southern. The largest regions are Mid-Atlantic (23% of membership), Southern (19% of membership), and Midwest (17% of membership).

Member Retention: Of the total membership, 76% are retained members and 24% joined since October 2022. SGIM membership's overall retention rate was 70% in 2022, 82% in 2021, 58% in 2020 and 66% in 2019.

While SGIM continues to seek out prospective members and demonstrate its value to their career in General Internal Medicine, its foremost goal continues to be ensuring its current members find their affiliation one of value and that the organization remains their "professional home".

SGIM Membership Committee Mission:

The Membership Committee identifies and measures members' needs, priorities, viewpoints and satisfaction with the Society. Works with other leaders to develop and implement plans accordingly. Collaborates with Council and other workgroups to devise strategies for attracting and retaining members. Reviews membership statistics to understand growth patterns and trends.

2022-2023 Highlights-Trainee Engagement:

The Membership Committee continued the National Young Scholars in GIM Scholarship, offering a complimentary registration to attend the in-person 2023 SGIM Annual Meeting in Aurora, CO. 189 applications were submitted by medical students and residents to be considered for this scholarship—the highest number to date. Due to donations to the Future Leaders of GIM Fund, this year a total of 50 scholarships were given to SGIM medical students and resident members.

The Membership Committee also continued the Investing in GIM Membership Program offering a complimentary membership to first year fellows and is currently in its 11th year. Due to the donations to the Future Leaders of GIM Fund, this year a total of 75 memberships were given. Since 2012, 439 first year fellows have entered the program. The Investing in GIM Program's retention rate is currently over 85%.

Committee Members:

Chair: Winter Williams, MD,
FACP

*University of Alabama at
Birmingham*

Co-Chair: Amar Kohli, MD
University of Pittsburgh

Council Liaison: Brita Roy, MD,
MPH
*New York University Langone
Hospital – Brooklyn*

Sudeep Aulakh, MD
Baystate Health System

Christine Bryson, DO
Baystate Medical Center

Teresa Cheng, MD
San Francisco VA Medical Center

Nancy Connolly, MD, MPH
University of Washington Medical Center

Jennifer Cowart, MD
Mayo Clinic Florida

Allison Crawford, MD
University of Chicago

Ami DeWaters, MD
Penn State Health

Kartik Dhaduk, MD
Geisinger Health System

Michael Hendricks, MD
*Oregon Health & Science
University School of Medicine*

Danielle Jones, MD
Emory University

Scott Kubomoto, MD
University of California, Riverside

Jane Liebschutz, MD, MPH
*University of Pittsburgh School of
Medicine*

Deepa Rani Nandiwada, MD
University of Pennsylvania

Amirala Pasha, DO, JD
Mayo Clinic-Rochester

Mohammed Afraz Pasha, MD
North Alabama Medical Center
