

AI and Submission Attestation

As the submitting author, I:

- Acknowledge that I am responsible for verifying the accuracy, originality, appropriateness, and integrity of all content submitted to SGIM Forum, regardless of whether artificial intelligence (AI)-assisted tools were used in the generation, drafting, editing, analysis, or preparation of any portion of the submission;
- Attest that all submitted content is accurate, evidence-based where applicable, and has been reviewed and verified by the authors;
- Attest that the submission reflects editorial and scholarly integrity and the authors' own intellectual contributions;
- Attest that all contributing authors have been appropriately identified, have approved the final version of the submission, and accept responsibility for its content; and
- Understand that the editors of SGIM Forum reserve the right to request additional information regarding the use of AI-assisted tools or to reject submissions that do not comply with the publication's editorial standards.
